The Pauhandle a Prosperous Road-Statement of the Vanderbilt Lines Also Gratifying.

The lines in the Southwestern system of the Pennsylvania interests continue to show highly satisfactory earnings, still leading the parent line in increases from month to month. The report of S. B. Liggett, secretary of the Pennsylvania Company, makes the following financial statement of the Pittsburg, Cincinnati, Chicago & St. Louis Railway Company for November, 1895, and for eleven months ended Nov. 30, 1895, and increase or decrease as compared with corresponding periods of 1894:

Central Traffic Lines.

The pasenger agents of the Central Trafic Association lines met in Chicago yesterday to consider the advisability of continuing their association for the purpose of handling the local business in the association territory. The meeting did nothing except affirm the decision reported by the general managers at their meeting of Dec. 5, when it was decided to appoint a committee of eleven to determine what was best to be done if the old Central Traffic Association should go out of existence. It is certain that an association will be formed to have control of the passenger traffic and probably one will be formed to look after freight matters as well. The committee of eleven will report about the first of the year.

There are now but seven patients in the nospital of the Wabash road, at Peru, Ind., which is an unusually small number. The students' low rates are now in force, and this class of travel is setting in heavily. Tickets are good to return up to Jan. 10. The Wabash lines earned in the second week of December \$204,238, an increase over the corresponding week of 1894 of \$25,797. C. W. The Lake Shore railroad has declared a regular semi-annual dividend of 3 per cent. The Michigan Central railroad has declared its regular semi-annual dividend of 2 per

Thomas Shepperd, who had worked in the boiler shops of the Pennsylvania line for forty years, died at Fort Wayne, on Tuesday night. When the shops were opened at Fort Wayne he was sent West, being an expert boiler maker. His funeral will occur at Fort Wayne this afternoon, and the shops will be closed that the employes may at-

tend the services. J. M. Johnson, general freight agent of the Chicago & Rock Island, who has been elected chairman of the Western trunkine freight committee, has been in railroad service twenty-five years, commencing as agent of the Indianapolis, Cincinnati & Lafayette in 1870. He has been general freight agent of the Chicago & Rock Island

since March 1, 1880. P. A. Bonebrake, superintendent of the Louisville division of the Pennsylvania ines, was in the city yesterday. He says the road has plenty of business, but lacks cars to handle it. The reason the Indianapolis & Vincennes road leads this division. Mr. Bonebrake says, is that its business is largely coal, and the I. & V. is fortunate mough to have a good supply of cars for that class of traffic.

The Big Four, which four years ago established a part water and part rail route via Benton Harbor between Milwaukee and Cincinnati, yesterday withdrew from the line and will take no more business from Milwaukee. The reason assigned for the move is that the company had no dock facilities at Milwaukee and the water at Benton Harbor and St. Joe is so shallow that it seriously interfered with navigation in win-

Women's Prison Report. The directors of the Women's Prison and Girls' Reform School made their annual

report to the Governor yesterday. It shows that the total expenses of the institution for the year were \$45,000, of which amount the counties having girls in the institution paid \$13,357.32, and the institution earned \$1,802.97, making the net cost to the State \$29,840.66. The cost per capita in the reform school was \$168. The directors urge the provision for a separation of the girls in the reform school so as to place the refractory and returned ticket-of-leave girls away from the others. There have been 1,049 girls committed to the institution since its establishment. During the last year sixty were received, twenty-nine were released on ticket-of-leave, eight were returned who had been out on ticket-ofleave, and the number now in the school is 180. There are eighty-nine now out on ticket-of-leave. There have been 560 commitments to the prison. There were twelve prisoners received last year, eighteen discharged, one died and there are now in the prison thirty-six women.

HUNDREDS OF PEOPLE PRISONERS IN THEIR SUBURBAN HOMES.

Rain Has Fallen for Thirty Hours-Sewer Intakes Are Choked with Ice-6.29 Inches in Missouri.

CHICAGO, Dec. 19.-Rain has been falling for nearly thirty hours and in some portions of the city the situation is becoming serious. In the suburbs of Moreland, where the sewerage is not up to requirements, many hundreds of people are prisoners in their own houses. The water has filled the streets and in many instances the people have been compelled to move to the second stories of their houses. Improvised rafts are used to enable people to cross the streets. As in other suburbs street-car traffic is entirely suspended because of the water in the streets. In the down-town districts many cellars are being filled by back water from the streets. The intakes of the sewers have become so choked with ice that it is not possible for the water to run off as rapidly as it comes down. Serious damage will result unless the storm soon abates. In the suburb of Berwyn the condition of affairs to-night is serious. The place is

Creeks are bank full, and some damage is reported at Fort Scott, Kan. A number of families have been force abandon their houses and seek shelter on higher ground.

Heavy Rainfall in Missouri. ST. LOUIS, Dec. 19.-The Missouri weather service reports to-night the heaviest rainfall recorded since the establishment of the bureau. The total rainfall in the last forty-eight hours has been 6.29 inches. All over central Missouri the streams are out of their banks. In some places much lamage has been done by the water. From Monday noon until to-day noon seven and a quarter inches of water fell in the vicinity of Sedalia, Mo. This morning one hundred yards of the Sedalia, Warsaw & Southern raliroad tracks washed away by an overflow of Flat creek. All traffic on the Missouri, Kansas & East-ern between Sedalia and St. Louis has been suspended on account of serious washouts. Passenger trains on that line are run-ning over the Missouri, Kansas & Texas and Wabash via Moberly. From Mexico, Mo., comes the report that creeks all over the country are out of their banks and farmers who are in town are unable to return home. Some stock has been drowned and great damage has been done to ungath-Warrensburg, Centralia, Eldorado, Ne-

vado and Paris, Mo., reports indicate a similar condition of affairs.

FOR DAIRIES

REGULATIONS DRAFTED UNDER THE NEW MILK ORDINANCE.

Adulteration of Milk with Water Pun ishable by a Fine-Conditions Surrounding Stables.

City Sanitarian Ferguson has prepared rules whereby dealers in milk may be guided and purchasers of milk protected. All buildings where cows are kept must be well lighted, well constructed, with good ventilation and drainage. Such buildings should have suitable floors laid with proper grades and channels for drainage. Good and sufficient feed boxes must be prepared for cows. No cesspool, closet, work shop or inhabited room must be in the dairy room or in the room for the storage of milk, neither must fowls, hogs, horses, sheep or goats be kept in such rooms. Stalls must be four feet wide and the stables must be kept in repair and painted or whitewashed. Cows must be cleaned dally and they must be accessible to water at all times. Any inclosure where cows are kept must be graded and kept dry and clean. Milk, after being drawn, must be removed from the stable immediately. Milk must not be kept in a refrigerator connected with a cesspool or sewer, or where meat and other articles are stored. Cans, measures and receptacles for milk must be scalded daily with boiling water or live steam and the receptacles must not be rinsed with cold water which may be im-

All milk sold must be strained and allowed to cool to 58 degrees within forty-five minutes after being drawn. Milk must not exceed 60 degrees in heat at the time of delivery to customers. All cans containing milk delivered to creameries in the city shall be covered with air-tight lids. Night and morning milk must not be mixed. Cows must not be fed food which will impart a disagreeable flavor to the milk. Such feed as turnips, barley sprouts, brewery or dis-tilled grains, linseed meal, glucose refuse, and starch refuse are prohibited from use. It shall be the duty of every dairyman to promptly report any sickness among his cows, and to isolate the sick animals. All contagious diseases in the family of the without light and without its regular water dairyman or those attending to the work of the dairy must be reported to the Board of Health at once. Milk containing more than

A SPECIAL COUNCIL MEETING. It Will Consider Mr. Taggart's \$100,

000 Bond Ordinance. There will be a special meeting of the Council next Monday evening. An ordinance authorizing the sale of \$100,000 partment and make improvements at the City Hospital will be introduced. Mr

Johnson, the controller, will recommend that these bonds run for ten years; that they shall bear interest at 4 per cent., and that they shall be paid in ten installments. Mr. Johnson claims that he has received information that such bonds can be sold at par, perhaps at a small premium. By Mr. Johnson and Mayor Taggart it is regarded more expedient to have the bonds payable in ten installments than all at once at the end of the time. Mr. Johnson says the amount saved in interest in this manner will greatly exceed the possible premium which could be obtained were they drawn all payable at one time. He claims that the city would probably have to refund them if they fell due in a bunch, while if they fall due in installments preparations can be made for the payment of each in-

FUNERAL OF SILAS T. BOWEN.

It Will Be Held To-Morrow at the

Family Residence. The death of Silas T. Bowen, the ploneer bookman, occurred yesterday morning at 2:45 o'clock, at his home, No. 44 West North street. The end was not unexpected. Mr. Bowen had been very ill for several months. and for the last week his condition was such that his family was led to believe that he could survive but a few days. The fun-eral will be held at 10:30 o'clock to-morrow. at the family residence. Arrangements have been made to have the burial private.

The interment will be at Crown Hill.

Frankfort Bank Must Stand Loss. In the suit of the First National Bank, of Frankfort, against the National Bank of the Republic, of Chicago, to recover \$11,000 in checks sent to the Indianapolis National Bank for collection in 1893, Judge Seaman yesterday found a verdict for the defendant. The case was tried in the United States Court at Chicago. It was shown that the Frankfort bank sent the checks to the Indianapolis National Bank, which, in turn, sent them to Chicago and got remittances. The Indianapolis bank failed before the Frankfort institution could get the money.
The court held that the Chicago bank was justified in remitting and could only know the Indianapolis National Bank in the

A Charity Chattel Mortgage Company. Some of the members of the Second Presbyterian Church have organized a society to be known as "The Eight-per-cent. Chattel Security Loan Company." Its organization was suggested by Rev. J. A. Milburn. who spoke last Sunday on the injustice to which deserving people are subjected by chattel-mortgage money lenders. It is the purpose of the new society to loan to deserving persons at a rate not to exceed 8 per cent. a year. Money will be loaned on the chattel-mortgage plan. The articles will be filed when a sufficient amount of stock has been pledged.

A SALOON AT OAKLANDON. The Recent Decision of Judge Brown Makes It Possible.

The County Commissioners yesterday granted a liquor license to Ernest H. Ludwig, who will open a saloon at Oaklandon. The license was granted under a decision of Judge Brown, of the Circuit Court. A remonstrance containing the names of a majority of the voters of the township was filed against Ludwig, but before the com-missioners took final action some of the remonstrators asked permission to withdraw their names. The commissioners refused to Keystone avenue, which is occupied by the allow this done, and the matter was taken defendant Kerchner. Harberer alleges that to the Circuit Court. DYSPEPSIA THE CHIEF CAUSE OF CONSUMPTION.

FACTS WITH WHICH FEW ARE FAMILIAR.

Dyspepsia or ordinary indigestion is seldom regarded as a dangerous disease, yet doctors now realize that any disturbance of the digestive function is but a stepping stone to the most dangerous and fatal of all diseases-dread consumption.

This appears very clear when we consider that consumption, as the name implies, is but a consuming of the body's substance Weakness and emaciation naturally result. The body of a person who does not proply digest food undergoes wasting, and you may safely assume that every pale, thin person of your acquaintance is not properly digesting and absorbing food. In other words, the substance of the body is being consumed, and when the cough puts in an appearance they will be regarded as consumptives.

The symptoms of consumption and those arising from certain forms of indigestion are practically identical. Therefore, don't despair, even if you think your lungs may be affected. First try to repair your stomach and put it in order. This is best done by a very harmiess though very ingenious remedy-the Shaker Digestive Cordial. This product, prepared by the Shakers of Mount Lebanon, aids the digestion of food in the stomach, and when food is once di-

gested it is quickly absorbed. If your are dyspeptic, don't wait until some more dangerous disease has appeared. Correct the trouble at once. A single 10-cent bottle of the Shaker Di-gestive Cordial will be sufficient to convince you of its merit, and its continued use is al-most certain to effect a cure. All druggists teep it and can supply you with an interest
